

UPR Ecoboost 2.3 Breather tank Installation

5029-200 Ecoboost
2.3 Breather tank kit

Mount the breather tank to the passenger side shock tower tab with the supplied hardware.

The UPR Breather tank kit will eliminate any connections to the intake manifold or air intake tube. The VPS sensor is also eliminated so it must be shut off in the tune to eliminate the check engine light. This is FOR RACING / OFF ROAD USE ONLY. Not for use in on - road vehicles.

Route around the back of the engine to the PCV fitting on the engine block.

To Valve cover

*New Plug N play fittings for an even easier installation.

Always check and drain the catch can more often in winter / freezing weather. If the water/oil mixture in the catch can is allowed to freeze it will cause damage to the catch can and internal components. Any damage due to freezing is NOT WARRANTY. You must dispose of the liquid collected in the catch can properly (with used waste oil) properly according to your local laws.

Product Liability Statement: The purchase of the product, manufactured by UPR Products Inc. completes an agreement between UPR Products Inc. and the customer. UPR Products Inc. assumes no liability for damages or injury incurred by the buyer of this product. The purchaser or user of this product is responsible for the proper disposal of any hazardous materials (oil catch can contents).
