

UPR EB-108 Sur Ron Digital Display Relocation Bracket

Remove the digital display from the switch assembly by removing 2 screws.

Position the UPR Bracket onto the handle bars and start the screws. DO NOT TIGHTEN the screws at this time.

Install the Digital Display onto the bracket with the factory screws. Adjust the positioning to your liking and tighten the bracket. DO NOT OVERTIGHTEN the bracket. The screws just need to be snug enough to secure the bracket. The two bracket halves may not meet depending on the style and model of your handlebars.
